CENTRAL INTAKE

- Central Intake Specialists link women and families over the phone to health care providers, resources and support in their community
- Centralized Referral and Resource Program in every county throughout New Jersey
- Serve as the Single Point of Entry for Home Visiting Programs
- Universal Tracking System for services in each county

HOME VISITING PROGRAM

- Free and voluntary for families
- Provide education, support and resources to women and families with young children through regular home visits
- Work with the family to promote a healthy pregnancy
- Education on childbirth, raising a healthy child, developmental milestones

ABOUT US

Healthy Women Healthy Families focuses on providing women of childbearing age and their families access to resource information and referrals to local community services that promote child and family wellness.

* Reducing health disparities and infant mortality for African American women
* Central Intake Hub for Hunterdon, Mercer, Middlesex and Somerset Counties
